Advisory Action	09/415,018	PEDENON, ARNAUD			
	Examiner	Art Unit			
	Fred Ferris	2123			
The MAILING DATE of this communication appears on the cover sheet with the correspondence address					
THE REPLY FILED 20 May 2003 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.					
PERIOD FOR REPLY [check either a) or b)]					
a) The period for reply expiresmonths from the mailing date of the final rejection. The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
1. A Notice of Appeal was filed on Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.					
2. The proposed amendment(s) will not be entered because:					
(a) ☐ they raise new issues that would require further consideration and/or search (see NOTE below);					
(b) ☐ they raise the issue of new matter (see Note below);					
(c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or					
(d) they present additional claims without canceling a corresponding number of finally rejected claims.					
NOTE:					
3. Applicant's reply has overcome the following rejection(s):					
4. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).					
5. ☐ The a) ☐ affidavit, b) ☐ exhibit, or c) ☐ request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.					
6. The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.					
7. For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.					
The status of the claim(s) is (or will be) as follows:					
Claim(s) allowed: 8-14 and 22-28.					
Claim(s) objected to: 3,5,6,17,19 and 20.					
Claim(s) rejected: 1,2,4,7,15,16,18,21,29 and 30.					
Claim(s) withdrawn from consideration:					
The proposed drawing correction filed on is a) □ approved or b) □ disapproved by the Examiner.					
. Note the attached Information Disclosure Statement(s)(PTO-1449) Paper No(s)

S. Patent and Trademark Office					

Continuation of 5. does NOT place the application in condition for allowance because: Arguments are not persuasive. Claims have not been amended. Applicants have argued that limitations relating to transforming cells by performing "rules" is not taught in the prior art. The examiner has asserted that Chang discloses the use of "rules" (CL7-L27) in transforming (modifying) cells as previously cited in the final office action (paper # 10). Regarding applicant's request for After Final interview: During the referenced telephone conversation on May 15, 2003 between examiner and applicant's representative, the examiner agreed to consider granting an After Final interview, and possible entry of any amendment, only after reviewing applicant's proposed supplemental amendment. Since applicant's have merely filed a request for reconsideration, and no claims have been amended, the examiner believes that an interview would not help put the rejected claims in better form for allowance at this late stage of prosecution. It is noted that examiner has indicated that indendent claims 1 and 15 would be allowable if the limitations of dependent claims 3, 5, and 6 were included in claim 1, and the limitations of dependent claims 17, 19, and 20 were included in claim 15. (please see interview summary, paper #10)
